

Simple one step screen

Teacher does not need to set up group codes in advance

NEW STUDENT REGISTRATION

New Student Registration

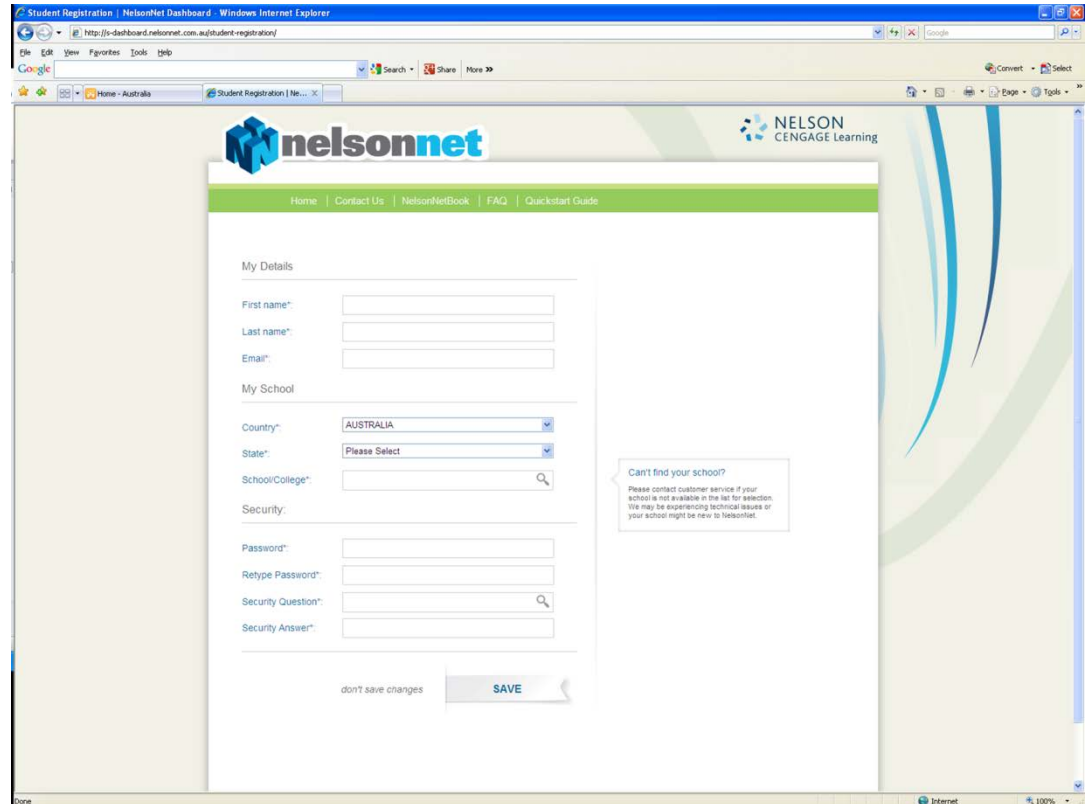

Setting up a student Dashboard in NelsonNet has been simplified and the look and feel for teachers and students is similar.

Log in or create a new student account at www.nelsonnet.com.au

Students will require a Student Access Code when adding new titles to their Dashboard – codes come with printed books or can be purchased in a Student Access Card

Student Registration occurs on a single screen

Group code is not required to access a new title

The screenshot shows the NelsonNet Student Registration form in a Windows Internet Explorer browser window. The browser's address bar displays the URL <http://fs-dashboard.nelsonnet.com.au/student-registration/>. The page features the NelsonNet logo and the Nelson CENGAGE Learning logo. A navigation bar includes links for Home, Contact Us, NelsonNetBook, FAQ, and Quickstart Guide. The form is divided into several sections: My Details (First name, Last name, Email), My School (Country, State, School/College), and Security (Password, Retype Password, Security Question, Security Answer). A "SAVE" button is located at the bottom right of the form. A help box on the right side of the form reads: "Can't find your school? Please contact customer service if your school is not available in the list for selection. We may be experiencing technical issues or your school might be new to NelsonNet."
