

NelsonNetBooks can be used offline

Notes and annotations can be saved when offline

Weblinks, worksheets etc cannot be accessed without an internet connect

ONLINE/OFFLINE STUDENT

What does Online/Offline mean?

- A NelsonNetBook can be downloaded to your device (desktop or laptop computer, Mac or PC, and iPad)
- If the user has downloaded the NelsonNetBook to a local device the offline version opens automatically at next use. This will reduce the burden on school networks
- To download a NelsonNetBook you must be online.
- Once a NelsonNetBook is downloaded you do not need to be connected to the internet to read and annotate it.
- Support resources on NelsonNet resources are not available offline – to access a NelsonNet resource an internet connection is required
- You must have an internet connection to update notes and annotations from your teacher and with your web version
